• VISION & MISSION

Vision - To empower individuals with a dynamic and rewarding referral ecosystem, offering continuous earning potential and demystifying cryptocurrency for all.

Mission - To provide a clear, accessible, and sustainable platform where users can maximize earnings through direct referrals, fostering a vibrant community while educating every individual about cryptocurrency to dispel myths and prevent scams.

• Define BLOCKCHAIN

A blockchain is a revolutionary technology, acting as a secure, transparent, and immutable distributed ledger. It's essentially a continuously growing list of records, called blocks, which are linked and secured using cryptography. Each block contains a cryptographic hash of the previous block, a timestamp, and transaction data, making it incredibly difficult to tamper with. This decentralized nature fosters unprecedented trust and efficiency by eliminating the need for a central authority, allowing for secure and verifiable transactions across a network. Its innovative structure promotes transparency, resilience, and enhanced data integrity, paving the way for groundbreaking applications beyond just cryptocurrencies.

• WHAT IS CRYPTO CURRENCY?

Cryptocurrency is a form of digital or virtual currency secured by cryptography, making it incredibly difficult to counterfeit or double-spend. Unlike traditional money, it operates on decentralized networks, typically using blockchain technology, which means no central authority like a bank or government controls it. Transactions are recorded on a public, immutable ledger, ensuring transparency and security. People can use cryptocurrencies for online payments, as an investment, or even for specific applications within a blockchain ecosystem. While its value can be volatile, its innovative structure allows for peer-to-peer transactions globally, 24/7, with potentially lower fees.

• HOW TO EARN FROM CRYPTO?

You can earn from cryptocurrency primarily through price appreciation by buying and holding (Holding) assets like Bitcoin. Alternatively, active trading involves buying low and selling high to profit from short-term fluctuations. For passive income, staking locks up your crypto to earn rewards, while lending allows you to earn interest by providing your crypto to borrowers. More advanced methods like yield farming involve providing liquidity to decentralized platforms for fees and token rewards.

• WALLET

A cryptocurrency wallet is a software application or a physical device that doesn't actually "store" crypto, but rather secures the private keys that prove your ownership of cryptocurrencies on the blockchain. It allows you to send, receive, and manage your digital assets.

Example: A popular software wallet is MetaMask, used for interacting with Ethereum-based cryptocurrencies and decentralized applications. A well-known hardware wallet is Ledger, a USB-like device for offline storage and enhanced security.

• WHAT IS DYNAMO?

"Dynamo is the platform where you can learn and earn. The 'Dynamo Affiliated Referral Earning Program' is a referral-based system where users can earn cryptocurrency (opBNB) by bringing in new participants. In short, it's a program where you earn opBNB (a Layer 2 scaling solution for BNB Chain) by referring new users. When someone you refer registers and activates their account by paying 0.1 opBNB for each step, you receive 90% of that payment (0.09 opBNB). There's an earning limit of 0.27 opBNB per cycle, after which you must reactivate your own account by paying 0.1 opBNB to continue earning. The goal is to build an active network of referrals to complete earning cycles faster and maximize monthly profits. Let's see how in short:"

Dynamo Affiliated Referral Earning Program

1. User Registration

- Action: User registers with a referrer by paying 0.1 opBNB.
- Outcome: Referrer earns 0.09 opBNB (90% of the package).

2. Activation

- Action: User activates their account by paying 0.1 opBNB.
- Outcome: Referrer earns 0.09 opBNB.

3. Reward Limit

- Limit: A referrer can earn a maximum of 0.27 opBNB per.
- Upon reaching the limit, the referrer becomes inactive and must reactivate.

4. Reactivation

- Action: Referrer pays 0.1 opBNB to reactivate.
- Outcome: A new earning opportunity begins.

Referral Dynamics

- Direct Referrals: Each direct referral's registration and activation contribute 0.09 opBNB to your earnings.
- Active Referrals: Encourage referrals to stay active and refer others to maximize your earnings.

Earning Scenarios

- Scenario 1: 3 Direct Referrals.

Earnings:

- Referral 1 Registration: 0.09 opBNB,
- Referral 2 Registration: 0.09 opBNB,
- Referral 3 Registration: 0.09 opBNB,
- Total: 0.27 opBNB (Complete),
- Scenario 2: 1 Active Referral.

Action	Your Earnings	Details
Registration	0.09 opBNB	Earn when your referral registers (0.1 opBNB fee).
Activation	0.09 opBNB	Earn when your referral activates (0.1 opBNB fee).
Earning Cycle Limit	0.27 opBNB	Max earning per cycle. Reactivate to continue.
Reactivation Cost	0.1 opBNB	Pay to reset your earning limit and start a new cycle.

Earnings:

Referral Registration 1: 0.09 opBNB,

Referral Activation 2 : 0.09 opBNB,

Referral Activation 3 : 0.09 opBNB,

Total: 0.27 opBNB (Complete in 3 Days).

Monthly Earning Potential

Daily Activation: If you complete a cycle every 3 days:

10 cycles/month × 0.17 opBNB (net profit) = 1.7 opBNB/month,

With More Active Referrals: Cycle completion accelerates, increasing monthly earnings.

Summary

Stay Active: Regular activations ensure continuous earning eligibility.

Build a Team: More active referrals lead to faster completions.

Monitor Earnings: Keep track to reactivate promptly after reaching the limit.

How to **BUY & Sell** BNB on Binance Application

BUY

- Open the Binance App and Go to "**Buy Crypto**": Look for the "Buy Crypto" or "+" button on the home screen.
- **Select "Buy"** and Choose BNB: Select BNB from the list of cryptocurrencies and choose your local currency (e.g., INR/\$,...).
- Enter **the Amount**: Specify how much BNB you want to buy or how much of your local currency you want to spend.
- **Choose Your Payment Method**: Select your preferred payment method (e.g., UPI, Bank Transfer, Card).
- Review and Confirm Your Order: Carefully check all the order details and confirm before the timer expires.
- **Complete the Payment**: Follow the instructions for your chosen payment method.
- BNB Credited to Your Wallet: **Find your purchased BNB in your "Spot" wallet.**

SELL

- Open Binance and Go to "Sell": Launch the app and find the "Sell" or "Trade" section.
- Choose BNB and Your Currency: Select BNB to sell and your local currency (e.g., INR) to receive.
- Enter Amount: Type in the amount of BNB you want to sell.
- Select Payment Method: Choose how you want to receive the money (e.g., Bank Transfer).
- Confirm and Sell: Review the details and tap "Confirm" or "Sell."
- Receive Funds: Wait for the money to arrive in your chosen account.

This method assumes you're selling directly for fiat currency. If you're using P2P, the process is slightly different, involving selecting a buyer and confirming payment before releasing your BNB.

How to connect with DYNAMO ?

1. Get referral link from **WHAT's APP**
2. Download Metamask before opening Referral link
3. a) Connect wallet, b) register your wallet, c) Copy your Link share with your friends
- & EARN UNLIMITED ON **REFERRAL** 90% & **ACTIVATION** 90%
4. After 3 (Referral or Activation) Reactivate your wallet
